

Denplan Excel

Statement of Principles

We, the undersigned, confirm our willingness to be involved in the Denplan Excel Accreditation Programme and confirm that we have read, understood and will commit to a consistent Statement of Principles:

- We commit to the measurement of clinical effectiveness and oral health and ensure this is communicated to patients*, both individually and as a group
- We will support patients* in knowing what is being done and why to ensure their best opportunity for improving oral health
- We will know and fully record the state of the oral health of all our patients* and involve patients* fully in decisions regarding their ongoing care and treatment
- We care what our patients* feel and think about the practice and will listen and act upon their views and opinions
- We are committed to opening our practice and procedures to regular independent monitoring and to act upon the results
- We undertake to practise using the most appropriate procedures and dental knowledge and to ensure both the dentist and practice team are up-to-date with the latest dental and customer care techniques.

*and parents/carers as appropriate, where the patient is a child.

Signed:

Member of the Global  Group
