WELLBEING

## New product launch

**Denplan is delighted to announce that following consumer research completed in November 2009\*, we've launched two brand new products for our voluntary benefit portfolio.**

Offering products that promote preventive dental care is at the heart of everything we do. So, in response to the changing needs of patients and to keep up to date with current market conditions we've arranged Denplan Evolve I and Denplan Evolve II.

These plans are designed to give employees useable and value-for-money options when it comes to taking a preventive approach to their oral healthcare. The Evolve products cover employees for one or two check-ups, hygienist visits and x-rays (depending on the plan chosen) and because the plans are flexible, employees can visit any dentist

and can claim back for restorative treatments – up to £2,500 per policy year.

For more information about Denplan Evolve I and Evolve II, please contact the Corporate Sales Team at Denplan by emailing [corporatesales@denplan.co.uk](mailto:corporatesales@denplan.co.uk) or calling 0800 169 3279.

## KEY FACTS:

- 1** Evolve products are flexible and can be used at ANY dentist – including those on the NHS
- 2** The Evolve products are value-for-money options for preventive oral healthcare and cover employees for x-rays, hygienist visits and dental check-ups every year, regardless of the cost
- 3** Denplan Evolve I also provides 50% reimbursement on restorative dental treatment, up to £1,250 per policy year. Denplan Evolve II also provides 50% reimbursement on restorative dental treatment, up to £2,500 per policy year – market-leading levels of reimbursement.
